OVERVIEW

## Record Cleaning Brush

This high quality cleaning brush is an essential buy for any vinyl enthusiast. A clean record is the most basic step to vinyl audio excellence and the Roksan Cleaning Brush will ensure you glean the best from your record collection. It is a 'two stage' micro fibre design. The front brush ensures general cleaning of the vinyl surface and groove whilst the rear brush safeguards the removal of any remaining detritus.

### Features:

- Cleaning Element: Two Stage Micro Fibre
- Replaceable Fibre Element Kit: 2mm Dense & 4.5mm Open

Replacement kit comprises of a pair of fibre elements, recommended replacement intervals depending on the usage, normally every 3 years.

## Roksan Spirit Level

---

The Roksan Bubble Spirit Level is a small, simple yet effective tool, ideally suited to helping you level your turntable. A level turntable will help improve sonic performance by reducing the chance of structural movement, and allowing the platter to turn at a consistent, level speed.

This is an affordable, quality spirit level perfect for this purpose, with the highly desirable addition of the Roksan logo!

### Size:

- Diameter: 30mm
- Height: 10mm

## Roksan R-Mat 7

---

The highly regarded R-Mat is designed for use on all Roksan aluminium platter turntables. When used with the Roksan aluminium platters, the record label effectively 'drops' into the cut-out section of the mat, allowing the record to couple with the platter.

The R-Mat 7 can also be used with other turntables and platter designs with a universal spindle hole version, where performance improvements (firmer bass and midrange clarity) will be palpably noticed.

### Features:

- Simple but effective turntable upgrade, perfectly suited to all Xerxes and Oxygene 30 owners
- Non-Roksan users can also upgrade their turntables with a 'universal' spindle hole version
- Allows the record to sit flat on the platter and supports optimal playback

## Roksan Strobe Disc

---

Roksan's 33/45 rpm strobe disc is a simple and affordable way to ensure that your turntable is running at the correct speed. Available in two versions (50Hz and 60Hz), The strobe discs are suitable for all record players are to be used with normal incandescent light of corresponding frequency. When the platter is running at the correct speed the corresponding bar should appear stationary.

Versions:

- 60 Hz mains AC
- 50 Hz mains AC
